MEMORANDUM FOR [REDACTED]

SUBJECT

ARPA Supported Research Related to Intelligence Production

Reference is the attached set of papers:

- a. My memorandum to Mr. Tweedy, subject as above
- b. The memorandum to the DCI, which Mr. Tweedy initialed
- c. The draft DCI memorandum to chiefs of production organizations
- d. A memorandum to Mr. Tweedy reporting on Ed Proctor's negative reaction to the proposed project
- e. Memorandum for the Record on my conference with the Director of Behavioral Sciences, ARPA

(This last is for your eyes only, since I am talking about the prospective contractor- which Col. Kibler does not want noised about)

As my memo to Mr. Tweedy indicated (d above) I still have not been able to see Carl Duckett and get his reaction to the proposal. Will you handle this.

Also, will you talk with [REDACTED] and find out what he thinks of the idea.

25X1A

On the basis of these two checks, you should get back to Mr Tweedy and discuss whether anything further should be done with this project as a community effort.

If, as I now ~~consider~~ consider most likely, the decision is not to proceed further under PRG auspices, we should advise Lt. Colonel Kibler at ARPA.

We also should talk with [REDACTED] at DIA to let him know about the proposed ARPA survey, for he may want to have DIA get in on the survey even though it is not to be handled on a community basis.
